

# Sunny & 925

## Wheelchairs with a heart for children

Vermeiren has developed a separate series of wheelchairs specially designed for children. It is clear that these are more than simply smaller versions of adult wheelchairs. It is our aim to give the child as much freedom of movement as possible and to optimise the contact between the child, parents and therapists.

## Sunny

**The electronic wheelchair for children which gives even greater freedom of movement**

### Electronic and made-to-measure

The sunny is an electronic wheelchair for children which has a microprocessor. It is easy to operate, with a minimum of effort and maximum safety. Due to the 5 programs, the wheelchair adapts itself to the specific needs of the child.

## 925

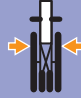

### The trusty standard

### The companion for your child

The 925 is the number one in wheelchairs for children. It is the companion for your child and provides you with the assurance of quality. For example, the robust metal tubing can resist small knocks and special clothing protectors ensure that clothing does not become entangled in the wheels of the wheelchair.

## Technical information Sunny & 925

										
total width	folded width	seat width	height of armrests	seat height	total height	total length	seat depth	back height	distance footrest-seat	weight
Sunny										(batt.incl.)
490	400	320	225/150	530	980	800	300/370	490	215/290	61
510	400	350	225/150	530	980	800	300/370	490	215/290	61
540	400	370	225/150	530	980	800	300/370	490	215/290	61
925										
480	320	290	130/155	490	910	770	330	350	adjustable	13
540	320	350	130/155	490	910	770	350	350	from 100 to 300 mm	13

Deviations in sizes and weight (15 mm and 1,5 kg) are possible

## Sunny

### Your ideal travelling partner

The batteries, the back and the seat cushion can be removed very easily. As a result, the Sunny can be folded, it becomes considerably lighter and it can be easily stored away in the boot of the car.

### Sunny grows with your child

Children grow unbelievably fast. The Sunny adapts itself to your child: the depth of the back, the height of the foot-piece, and both the height and depth of the armrests can all be adjusted.

### Choice of 2 colour combinations

Frame	Upholstery
 yellow	 black
 red	 black

## 925

### Foot-plate can be adjusted up to 10°

Some children grow quicker than others. It is therefore important that the footplate can be adjusted in both height and in depth.

### Easy to transport

The 925 is easy to take with you. It is light (only 13 kg) and can be folded. It is hence easy to take this wheelchair with you in the car or the train.

### Options

- adjustable legrests
- anatomical seat and back
- Quick-release® wheels

### Choice of 2 colour combinations

Frame	Upholstery
 yellow	 black
 light blue	 blue
